Uninterruptible power supply with IQ Technology and integrated battery for DIN rail mounting, input: 24 V DC, output: 24 V DC/5 A, battery: lead AGM 1.2 Ah, including mounted universal DIN rail adapter UTA 107/30

Product description

UPS modules with integrated battery are particularly space-saving: the UPS module and battery are combined in one housing. It's just a case of connecting a power supply upstream.

Your advantages

- Easy handling thanks to automatic battery detection, tool-free battery replacement during operation, and communication via the IFS interface
- Reliable starting of difficult loads with the static POWER BOOST power reserve with up to 1.5 times the nominal current permanently
- Fast tripping of standard circuit breakers with SFB (selective fuse breaking) technology
- Device suitable for universal use thanks to comprehensive license package and extensive parameterization and diagnostics options
